

New Hire Welcome Ideas

APEX
SYSTEMS

Your employee engagement and retention strategy should start ideally before a new team member's first day or the minute they log on. Your chances of losing team members increases if they don't feel welcomed, included, connected, motivated, informed, ramped-up on key things around the company, team, and their role. Incorporate welcome ideas to show your commitment to new team members right out of the gates, and get them excited to work with you, their team, and the company!

- **Virtual Meet and Greet**
